

My experience in Rugby dates back many decades as both a player and club administrator.

I helped start a club in Southern California in the D3 division so I have a good understanding of what it takes to run a small club in a large city.

Since coming to Dallas in 2002, I have been with the Harlequins as both a player, coach, club president and other officer roles.

My experience with running the club, along with the administrative challenges of playing in different parts of the country every year, gave me a unique perspective in the operation of the league and scheduling problems that can arise.

I feel with my broad Rugby experience, both at the lower as well as higher Divisional levels, I can offer a unique perspective to represent the Division 1 membership of the TRU on the RRRC committee.

Thanks for the opportunity,
John Dale
