

John Dale

As your D1 Rep I will work with you and the committee to resolve any issues you have with the schedule, work with the other RRRC members to ensure the schedule is as fair as possible and be available for all meetings and conference calls to promote the best interests of the RRRC with both USA Rugby and other GU's.

I've been around the game for 45 years as a player, club administrator and (part time) referee in Texas, California and the UK. My administrative strength is in getting things done after evaluating the pros and cons of any problems.

I would appreciate the opportunity to help with the RRRC and represent the membership to the best of my abilities.
