

Joe Kelly Rugby Resume

Goal

As a USA Rugby Congressional Representative I will endeavor to diminish all entry barriers to new rugby players and teams participating in this great sport. I wish to assist with building and improving participant clubs, as well as finding ways to provide opportunity for “grass roots” rugby to flourish and grow. Goals include developing structures to permit unimpinged advancement and exposure of players to higher levels of competition through select sides and all star competitions. Wide spread promotion of skills training, courses, and camps for players of all ages and levels will benefit not just players and clubs, but rugby as a whole.
