Personal Statement

Thank you so much for the nomination for the TRU Congress Club Representative. I began playing rugby in college and love this sport and the people that are associated with the sport tremendously. I am committed to continually helping the sport grow in the US so there is a chance for more people to experience the game that I have the privilege of playing. I hope to have the chance not just to grow the sport, but represent the specific interest of the rugby community of the TRU and RRRC to further our specific goals. Thank you again.
