

As a fan, a player and a coach, I've been a part of the Texas rugby scene since before I could walk. Rugby in the Lonestar State has always been an integral part of my life, dating back to the days of watching my dad play, to playing my first three years of ball at Westlake High School, to joining the Huns as a player and the Valks as an assistant coach.

My intention has been and will continue to be putting the game of rugby first. As I've seen the profound impact this game has had on people from all walks of life in Texas, it would be a privilege to step into a new role as part of the governing body that supports the growth and success of this sport at the highest level in our state.

Along with my experience as a fan, player, and coach, I've also had the pleasure of serving as Club Captain for the Huns the last two years. This has grown my perspective on the many working parts that go into building a strong community of rugby stakeholders; working parts which are borne from the notion of volunteerism and serving a greater good. These are traits I want to bring with me beyond just the Huns, but to the Texas Rugby Union at large.

I value fair competition, and I strongly admire people who do not cut corners and do not look to leverage their positions of power to serve their own needs. With this in mind, I can assure you all that I will be an honorable board member as the TRU D1 Rep.

Thank you for considering me for this position, and I look forward to working together with you all to ensure Texas rugby stays strong as we take on the 2020's!
