

Hunter Nezat

In 2018, I had the opportunity to serve on this Competitions Committee briefly, and during that season, I enjoyed working with representatives from around our region to grow our game. Though I turned my focus back to my club duties after fulfilling that interim term, I had hoped to one day offer my service to the larger community again. Now that I have that chance to re engage, I would like to contribute my unique perspective within the committee for the upcoming term. Our union is best served when the governing committees are representative of the broad spectrum of the member clubs, so I intend to serve as a fresh voice for underrepresented groups, both geographically and competitively within the RRRC.

Playing Experience:
