

# Travis Hughes

I would like to continue to serve as one of the Men's D3 representatives on the RRRRC Competition Committee for two main reasons. The first is to serve as an advocate for each member club in our competitive division. The second is to insure the D3 clubs have a strong voice on the competition committee. As one of the original members of the Competition Committee, I have developed strong relationships within the committee and made sure that the issues significant to the D3 Clubs are at the forefront of all policy decisions the committee deliberates.

## Playing Experience
